Logo 1

First we need to come up with a logo. We need 3 logos. The first logo idea looked a little flat it needed more.

Logo 2

For the 2nd Logo. I found the back of a dollar bill png and did some illustrator magic. I layered my S with the dollar and it improved the look but it needed more.

Final

For the last logo I combined both logos, added some more illustrator magic, and came up with my 3rd and final logo.
